47. The method according to claim 35, further including the steps of:  
grouping the one or more data elements in relation to the at least one human controlled power source driven vehicle or the at least one human's actions; and,  
storing the grouping on a database for access by a user via hard copy, Internet, or other electronic means.

#### REMARKS

The above amendments are deemed to place the application in better condition for examination.

Respectfully Submitted,
